

Chiropractic Office Compliance Program Solution

Is Your Practice at Risk?

As a health care provider, you can no longer rely on staff alone to safeguard your practice from audits and investigations.

Take Control

You are a hard working doctor with a lot of responsibility to your patients' wellbeing, your family's financial future, staff member payrolls, and to the third parties that provide a significant portion of your practice's income. What you may not know is that your practice could be at risk without an organized, comprehensive compliance program. Now is the time to take control and protect your practice.

Develop a Culture of Compliance with an Effective Compliance Program

It's no secret that Medicare/Medicaid and others are serious about fraud, abuse, and overpayments. Health care providers must immediately take steps to ensure that their practices fully comply with statutory and regulatory requirements of all third-party payor's with an effective office compliance program.

Is Your Compliance Program Working?

If your practice was audited by a third party, do you feel comfortable that you can show documentation that your office is in compliance with federal and state health care laws? Are you sure you're compliant with the rules and guidelines of the managed care "Provider Contracts" that you have signed?

Personnel Training and Organizational Tools

Now, with the **Office Compliance Pro**, you have an outstanding set of compliance training and organizational tools at your fingertips to help you create a **truly custom** federal and state compliance program.

Seven Step Program

Seven Steps to an Effective Compliance Program

The OIG recommends the following seven elements:

- Develop written policies & procedures
- Designate an individual responsible for compliance
- Measure effectiveness through measurable goals
- Provide compliance training and education
- Open lines of communication between the doctor & staff
- Internal auditing & monitoring to identify risk areas
- Enforcement and disciplinary action for non-compliance

What's the Solution?

The Office Compliance Pro is the Solution

The program's full set of tools and resources will streamline the time needed for your practice to implement the **Seven Step Compliance Program**, and will help you stay abreast of industry information, laws, rules and regulations so that you can **stay** compliant. The Office Compliance Pro is a must for every health care facility.
